

# Safety Data Sheet (SDS)

## Product: Acetone 99.5%

CAS Number	67-64-1
Formula	C3H6O
UN Number	UN1090
ADR Class	3
Packing Group	II
Signal Word	Danger
Issued	2026-05-25
Document Version	1.0
Producer	Industrial Chemicals Ltd.

**Appearance:** Clear colorless liquid, volatile

### 1. Identification

This section describes 1. identification information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

### 2. Hazards

This section describes 2. hazards information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

### 3. Composition

This section describes 3. composition information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

### 4. First-aid

This section describes 4. first-aid information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

### 5. Fire-fighting

This section describes 5. fire-fighting information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

### 6. Accidental release

This section describes 6. accidental release information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

### 7. Handling & storage

This section describes 7. handling & storage information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves,

goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **8. Exposure controls**

This section describes 8. exposure controls information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **9. Physical properties**

This section describes 9. physical properties information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **10. Stability**

This section describes 10. stability information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **11. Toxicology**

This section describes 11. toxicology information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **12. Ecology**

This section describes 12. ecology information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **13. Disposal**

This section describes 13. disposal information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **14. Transport**

This section describes 14. transport information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **15. Regulatory**

This section describes 15. regulatory information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.

## **16. Other**

This section describes 16. other information for Acetone 99.5%. Refer to local regulations (REACH, CLP, GHS) for full compliance. Always wear appropriate PPE: gloves, goggles, lab coat. Store in a cool, dry, well-ventilated area away from incompatible materials.
